

# R&D for Maternal, Newborn & Child Health

## References

---

### Introduction

**80% of all global maternal and child deaths occur in sub-Saharan Africa and Southern Asia:** More women and children survive today than ever before – UN report [press release]. New York: World Health Organization (WHO); September 19, 2019. <https://www.who.int/news-room/detail/19-09-2019-more-women-and-children-survive-today-than-ever-before-un-report>.

**Child deaths declined by nearly 60%:** UN Inter-agency Group for Child Mortality Estimation. *Levels & Trends in Child Mortality: Report 2019*. New York: UNICEF; 2019. <https://data.unicef.org/resources/levels-and-trends-in-child-mortality/>.

**Maternal deaths declined by nearly 45%:**

WHO, UNICEF, UNFPA and The World Bank. *Trends in Maternal Mortality: 2000 to 2017*. Geneva: WHO; 2019. <https://www.who.int/reproductivehealth/publications/monitoring/maternal-mortality-2015/en/>.

WHO, UNICEF, UNFPA and The World Bank. *Trends in Maternal Mortality: 1990 to 2015*. Geneva: WHO; 2015. <https://www.who.int/reproductivehealth/publications/monitoring/maternal-mortality-2013/en/>.

**5.3 million children under five die each year/290 thousand women die each year:** Surviving birth: Every 11 seconds, a pregnant woman or newborn dies somewhere around the world [press release]. New York City, New York: UNICEF; September 19, 2019. <https://www.unicef.org/press-releases/surviving-birth-every-11-seconds-pregnant-woman-or-newborn-dies-somewhere-around#targetText=In%202017%2C%20according%20to%20the,and%20childbirth%2C%20or%20over%2090%2C000>.

**214 million women have an unmet need for contraception:** Guttmacher Institute. *Adding It Up: Investing in Contraception and Maternal and Newborn Health, 2017*. Washington, DC: Guttmacher Institute; 2017. <https://www.guttmacher.org/fact-sheet/adding-it-up-contraception-mnh-2017>.

### Research successes

**Vaccines against childhood diseases save two to three million lives each year:** WHO website. Immunization coverage page. <https://www.who.int/news-room/fact-sheets/detail/immunization-coverage>. Accessed August 30, 2019.

**Contraceptive innovations:** WHO website. Family planning/contraception page. <https://www.who.int/news-room/fact-sheets/detail/family-planning-contraception>. Accessed October 22, 2019.

**Contraceptive innovations, self-insertable, one-year vaginal ring:** Population Council website. The Nestorone®/ethinyl estradiol one-year vaginal contraceptive system page. <https://www.popcouncil.org/research/one-year-contraceptive-vaginal-ring>. Accessed August 30, 2019.

**Contraceptive innovations, discreet, self-injectable, long-acting contraception:** The power to prevent pregnancy in women's hands: DMPA-SC injectable contraception [blog post]. *PATH*. November 12, 2018. <https://www.path.org/articles/dmpa-sc/>.

**Contraceptive innovations, expanding access to contraception could reduce maternal deaths by nearly one-third and child deaths by one-quarter:** US Agency for International Development (USAID) website. Family planning and reproductive health page. <https://www.usaid.gov/global-health/health-areas/family-planning#dataSources>. Accessed August 30, 2019.

**Tools to combat childhood malaria, insecticide-treated bednets:** Centers for Disease Control and Prevention (CDC) website. Insecticide-treated bed nets page. [https://www.cdc.gov/malaria/malaria\\_worldwide/reduction/itn.html](https://www.cdc.gov/malaria/malaria_worldwide/reduction/itn.html). Accessed August 30, 2019.

**Tools to combat childhood malaria, child-friendly malaria medicines:** Medicines for Malaria Venture website. 385 million treatments of Coartem® Dispersible delivered to over 50 countries page. <https://www.mmv.org/our-impact/achievements/385-million-treatments-coartem-dispersible-delivered-over-50-countries>. Accessed August 30, 2019.

**Interventions to treat and prevent diarrhea have reduced child mortality from diarrheal disease by more than one-third since 2005:** GBD Diarrhoeal Diseases Collaborators. Estimates of global, regional, and national morbidity, mortality, and aetiologies of diarrhoeal diseases: a systematic analysis for the Global Burden of Disease Study 2015. *Lancet Infectious Diseases*. 2017; 17: 909–948. [https://doi.org/10.1016/S1473-3099\(17\)30276-1](https://doi.org/10.1016/S1473-3099(17)30276-1).

**Nutrition innovations:** Global Health Technologies Coalition website. Why research & development page. <https://www.ghtcoalition.org/why-research-and-development>. Accessed August 30, 2019.

**Nutrition innovations, biofortified crops:** HarvestPlus website. <https://www.harvestplus.org/>. Accessed August 30, 2019.

**Approaches to prevent maternal-to-child transmission of HIV have contributed to a 41% decline in new infections in children since 2010:** UNAIDS website. Global HIV & AIDS statistics — 2019 fact sheet page. <https://www.unaids.org/en/resources/fact-sheet>. Accessed August 26, 2019.
