

R&D for Neglected Tropical Diseases

References

Introduction

1 in 6 people worldwide are infected with one or more NTD: Kaiser Family Foundation. *The U.S. Government and Global Neglected Tropical Disease Efforts*. Washington, DC: Kaiser Family Foundation; 2019. <http://files.kff.org/attachment/fact-sheet-the-u-s-government-and-global-neglected-tropical-diseases>.

149 countries in which NTDs are endemic: World Health Organization (WHO) website. Neglected tropical diseases page. https://www.who.int/neglected_diseases/diseases/en/. Accessed June 26, 2019.

<1% of new drugs approved between 1975–2011 were for NTDs: Weng H, Chen H, Wang M. Innovation in neglected tropical disease drug discovery and development. *Infectious Diseases of Poverty*. 2018;7(67). <https://doi.org/10.1186/s40249-018-0444-1>.

Research successes

First all-oral cure for sleeping sickness: Drugs for Neglected Diseases *initiative* website. Fexinidazole to treat sleeping sickness page. <https://www.dndi.org/achievements/fexinidazole/>. Accessed June 26, 2019.

New treatment for river blindness: First new treatment for river blindness approved by U.S. FDA in 20 years [press release]. Geneva, Switzerland: WHO Special Programme for Research and Training in Tropical Diseases; June 14, 2018. <https://www.who.int/tdr/news/2018/moxidectin-approved-as-treatment-for-river-blindness/en/>.

Child-friendly Chagas drug: Drugs for Neglected Diseases *initiative* website. Paediatric benznidazole page. <https://www.dndi.org/achievements/paediatric-benznidazole/>. Accessed June 26, 2019.

Combination therapies for visceral leishmaniasis: Drugs for Neglected Diseases *initiative* website. Sodium stibogluconate & paramomycin (SSG&PM) page. <https://www.dndi.org/achievements/ssg-pm/>. Accessed June 26, 2019.

Rapid tests for river blindness and elephantiasis: Innovative partnership brings to market new tools for neglected tropical diseases [press release]. Seattle, Washington: PATH; April 11, 2016. <https://www.path.org/media-center/innovative-partnership-brings-to-market-new-tools-for-neglected-tropical-diseases/>.

Test that detects all four types of dengue: Global Biodefense. CDC begins distribution of new dengue fever tests. *Global Biodefense*. June 28, 2012. <https://globalbiodefense.com/2012/06/28/cdc-begins-distribution-of-new-dengue-fever-tests/>

Continued progress is possible, not inevitable

Bill & Melinda Gates Foundation and Institute for Health Metrics and Evaluation. *The Goalkeepers Report 2019: How Geography and Gender Stack the Deck For (or Against) You*. Seattle: Bill & Melinda Gates Foundation; 2019. <https://www.gatesfoundation.org/goalkeepers/report/2019-report/#ExaminingInequality>.

Key missing tools

Only seven NTDs are considered “tool-ready”: Kaiser Family Foundation. *The U.S. Government and Global Neglected Tropical Disease Efforts*. Washington, DC: Kaiser Family Foundation; 2019. <http://files.kff.org/attachment/fact-sheet-the-u-s-government-and-global-neglected-tropical-diseases>.

No vaccine exists for 20 of the 21 NTDs: WHO website. Neglected tropical diseases page. https://www.who.int/neglected_diseases/diseases/en/. Accessed June 26, 2019.

Breakthroughs on the brink

Several chikungunya vaccine candidates, candidate ready to enter phase 3 trials:

Liu A. Themis’ chikungunya vaccine, furthest in development, nabs fast FDA review. *FiercePharma*. February 26, 2019. <https://www.fiercepharma.com/vaccines/themis-chikungunya-vaccine-furthest-development-nabs-fast-fda-review>.

NIAID-sponsored trial of experimental chikungunya vaccine begins [press release]. Bethesda, MD: National Institutes of Health; June 5, 2017. <https://www.nih.gov/news-events/news-releases/niaid-sponsored-trial-experimental-chikungunya-vaccine-begins>.

Several chikungunya vaccine candidates, candidate in phase 2 trials:

Liu A. Themis’ chikungunya vaccine, furthest in development, nabs fast FDA review. *FiercePharma*. February 26, 2019. <https://www.fiercepharma.com/vaccines/themis-chikungunya-vaccine-furthest-development-nabs-fast-fda-review>.

Shanley M. FDA grants fast track designation to chikungunya vaccine. *MD Magazine*. May 4, 2018. <https://www.mdmag.com/medical-news/fast-track-designation-chikungunya-vaccine>.

Diagnostic tests for Buruli ulcer: FIND. DX Pipeline Tracker. Geneva, Switzerland: FIND; 2019. <https://www.finddx.org/dx-pipeline/>. Accessed June 26, 2019.

New tools to control schistosomiasis, praziquantel designed for children: Pediatric Praziquantel Consortium website. The pediatric formulation page. <https://www.pediatricpraziquantelconsortium.org/pediatric-formulation>. Accessed June 26, 2019.

New tools to control schistosomiasis, vaccine candidate SM14: ClinicalTrials.gov. NCT03799510: Anti-Schistosomiasis Vaccine: SM14 Phase 2b-Sn in School Children. <https://clinicaltrials.gov/ct2/show/NCT03799510>. Accessed June 26, 2019.

Fosravuconazole, a potential new treatment for eumycetoma: Drugs for Neglected Diseases *initiative* website. Fosravuconazole page. <https://www.dndi.org/diseases-projects/portfolio/fosravuconazole/>. Accessed June 26, 2019.

Vaccine candidates against hookworm infection: Bottazzi MA. Human hookworm vaccine initiative: a public health value proposition leading to societal impact and positive financial returns. Presented at: the Third Global Vaccine and Immunization Research Forum, March 22, 2018; Bangkok, Thailand [poster presentation]. https://www.who.int/immunization/research/forums_and_initiatives/gvirf/forum_2018/en/index2.html.

Mosquitoes infected with *Wolbachia*:

World Mosquito Program website. Projects page. <https://www.worldmosquitoprogram.org/>. Accessed June 26, 2019.

National Institute of Allergy and Infectious Diseases website. Neglected tropical diseases scientific findings page. <https://www.niaid.nih.gov/research/neglected-tropical-diseases-scientific-findings>. Accessed June 26, 2019.

Combating Zika and Future Threats: A Grand Challenge for Development website. Wolbachia-infected mosquitoes page. <https://www.zikagrandchallenge.net/project/wolbachia-infected-mosquitoes.html>. Accessed June 26, 2019.

US government investment in NTD R&D

Policy Cures Research. G-FINDER Public Search Tool. Sydney, Australia: Policy Cures Research; 2019. <https://gfinder.policycuresresearch.org/PublicSearchTool/>. [Early access to 2018 data was provided by Policy Cures Research in December 2019. Data is now available online as of January 30, 2019. Disease categories included in calculation are kinetoplastid diseases, dengue, helminth infections, leprosy, buruli ulcer, leptospirosis, trachoma, mycetoma, and snakebite envenoming.]

US government R&D efforts

Kaiser Family Foundation. *The U.S. Government and Global Neglected Tropical Disease Efforts*. Washington, DC: Kaiser Family Foundation; 2019. <http://files.kff.org/attachment/fact-sheet-the-u-s-government-and-global-neglected-tropical-diseases>.

Salaam-Blyther T. *Neglected Tropical Diseases: Background, Responses, and Issues for Congress*. Washington, DC: Congressional Research Service; 2011. <https://fas.org/sgp/crs/misc/R41607.pdf>.

US Food & Drug Administration website. Tropical disease priority review voucher program page. <https://www.fda.gov/about-fda/center-drug-evaluation-and-research-cder/tropical-disease-priority-review-voucher-program>. Accessed October 23, 2019.
